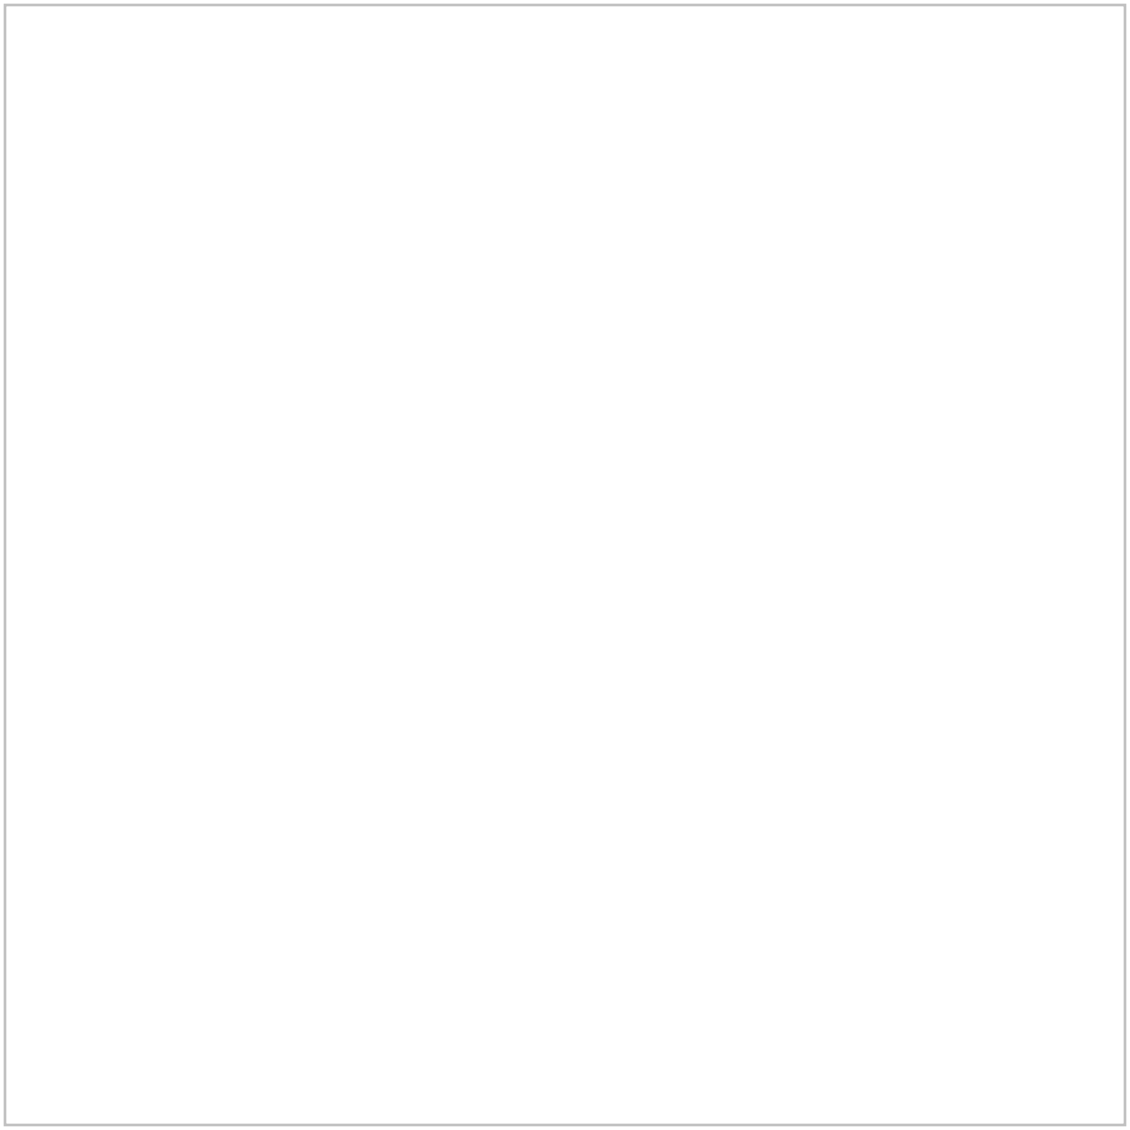
Customer Newsletter - Fall 2022

Welcome to your quarterly recap of all things Flock Safety. Read on for the latest product updates, educational resources, upcoming events, and more.

Coming soon! A more intuitive navigation experience



You don’t have time to click around while working on a case. Starting October 11, 2022, we’re making your software navigation experience more intuitive, getting you to the critical data you need to do your job *fast*.

New software features and enhancements

Check out the September ‘22 software release notes. We added seven new enhancements to help you access real-time intelligence with fewer clicks, including ways to

- Create, edit, and delete Camera Groups for faster searches
- Receive Hot List alerts in seconds
- Improve visibility with a clutter-free Map
- Save time searching video footage
- Generate audits faster

- Delete Outcomes to improve reporting accuracy
- Report on plate capture rates per camera

The future of School Safety is here

More cameras mean more crimes solved. Learn how Flock Safety partners with local universities and K-12 school districts to proactively protect students, faculty, and staff.

- Dr. Jack Moorman, former board member for IACLEA and current Campus Police and Director of Safety & Risk Management for Presbyterian College, shared his playbook for Combating Campus Crime.
- Georgia's Fulton County School District invested over $625K in Flock Safety to enhance security for 93,000 students and over 1,400 employees.

Want to expand your camera network by enlisting the help of your local schools? We have a dedicated School Safety team to get the ball rolling for you.
